

God is a tester

Did you know that God is a tester?

I imagine God on the 6th day:

- Given the 5th day has passed*
- When human beings in my image are created*
- And they are male and Female*
- And are blessed to grow in number*
- And are master of the earth*
- Then it must be seen as very good*

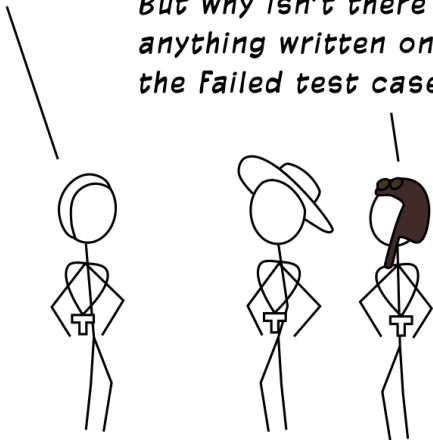

Test case 6 passed ✓

On the 7th day he said:

*"Finally I'm Finished, I can rest before
the next sprint planning begins."*

*But why isn't there
anything written on
the failed test cases?*

*Because those universes were scrapped,
then a bug was created.*

*And when Fixed a new
universe was deployed
ready For re-testing?*
