

# How to be arrogant

*Sometimes people tell me  
that I am arrogant!*

*Arrogance is "a provocative  
self-confidence with a  
condescending attitude"*

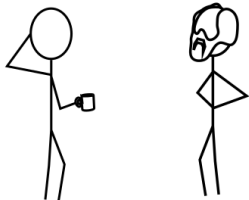

*I saw humility as the opposite of arrogance,  
so I tried to become as humble as possible!*

*And you became condescending  
with a provocative confidence  
in your own humility.*

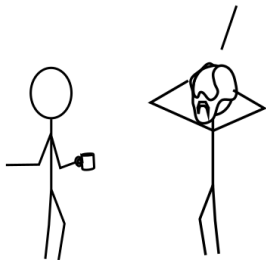

*Well, yes! Then I tried to remove all my opinions,  
but ended up with an arrogant victimhood!*

*I know a lot of people who say:  
"I am a victim and no one can  
prove me otherwise!"*

*It seems impossible NOT to be arrogant!*

*Indeed! So, since I **MUST** be arrogant then  
I may as well be arrogant as my self!*

*Yes! And it is arrogant to say  
other people are arrogant!*
