

# Logos and Lucifer

*Logos (or Logic) is our greatest gift.*

*It brings order and light into our world.*

*It's more beautiful and powerful than we can ever imagine!  
Bringing us from dark to light!*

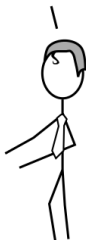

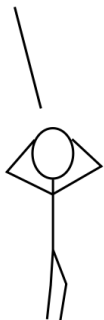

*But just like Lucifer: it comes with a  
temptation.*

*A temptation, that Logos (Lucifer) is perfect  
and better than the objective world (God).*

*It's a great pain to think "I'm right",  
when "I'm actually not".*

*Yes, it's hurts to let go of ex-knowledge in order to relearn new knowledge.*

*But if you hold onto it, then Lucifer becomes Satan - with which comes anger, resentment, and even war.*
