

Why sacrifice to God?

Why do we have to sacrifice something to the objective world? It's not like the objective world needs it.

*And you will only have less of
what little you already have,
but...*

*Imagine you get the opportunity For ballet
dancing lessons - First hour is For Free!*

*Why would I take ballet dancing lessons?
What would I get out of that?*

*Probably nothing, but once in a while
something unexpected!*

Isn't that a waste?

Yes!

80 % of the time it probably will be a waste, but once in a while, something you don't expect will happen, and this can make your life better!

So, this is gambling?

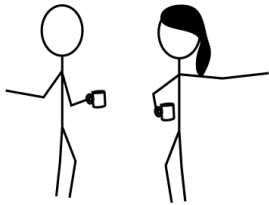

No, not really.

Gambling is about winning, while a sacrifice can enable the unexpected.

But winning in gambling is unexpected!

*Yes, but so is meeting the love of
your life in a casino
(and many other scenarios).*

*Don't go to the ballet lessons to win!
- go there to meet the unexpected!*

Hmmm... I could do that!
