

Truth and the Holy Spirit

"Spirits" in ancient texts can understood as "thoughts".

It makes sense, that people can be possessed by thoughts (spirits) - and some of them can be evil.

It is said that Nazi Germany was possessed by a Zeit Geist (Spirit of the age).

Today we also see the act of exorcism as in the form of re-education camps for people with thoughts perceived as evil (like terrorists).

So, what can the "Holy Thought" be then?

Maybe it is the golden thread from the objective world.

Ahhh.... Something that reminds us:

- that our intellectual model is imperfect.*
- when it is time to update it.*
- And even where to start!*
